- [] has completed revision of the draft distributed to key working group members on 17 July. As was anticipated, active participants in preparing the earlier drafts had only minor comments to add. Extensive comments were received from the NIO/EA and the NIO/SP, however. [] will meet with each of these NIOs to review the changes that have been made with the intent of acquiring their agreement prior to distributing the latest version to working group members. Although the NIO/SP will probably support the report if his wishes about publishing the annex [] are acceded to, he believes the NIO/EA will continue to feel that the criticality of [] is exaggerated in the "tone" of the report.
